The 21st and 22nd would work for our attorney, not yet sure if we will have one or more attending. We need to get this date, time and location firmed up as soon as we are able.

Thank you, all.

FYI. I met with my attorney. She was very encouraged.

Also, regarding dates. Polly is open on 7/21-23 (Thursday 24th DOES NOT work for her) for our all attorneys meeting.

In addition, I looked at schedules for the big group on my end. Looks like Tuesday 9/16 is my teams only free date (without needing to move schedules) I am attempting to place a hold on that day for now. We will modify as necessary.

Paul

To all -

Thank you all for a great, straightforward discussion this morning. I believe we covered a lot of ground and dealt with some critical issues.

I will not attempt to summarize all that we discussed at the meeting but I did want to touch base on a couple of items that will need all of our attention in the coming weeks.

First, attached is a draft of the legal issues document. Sorry it has taken me a while to craft this and get it out to everyone. I think I've captured the key issues but want your feedback as well. Based on all your input, I can modify this document prior to distribution to all our respective legal staffs. I would encourage us all to ensure we don't just forward this on to appropriate people but that we also take some time to discuss rationale, expectations, and other concerns that go along with this. Please send me any and all edits and I'll work on incorporating them into the document.

Second, we had discussed some key dates.

Thursday, July 17 - AM - (10:00AM to 12:00PM) - Small Group meeting to discuss various issues including array alternatives, public involvement and other items Thursday, July 17 - PM - (1:00PM to ??) - I will verify with Mike and John their availability for this meeting but it may help for Michael to send out a request to them as well.

July 21, 22, 23 or 24 - All Day - Meeting with Small Group and appropriate legal representatives. This will involve some internal discussions with legal staff prior to such a meeting as well. We need to verify availability for one of these dates. Let's try to nail this down as soon as possible - hopefully by early next week. If these dates don't work, let's discuss alternatives at our July 17 meeting next week.

Next Large Group Meeting - I sensed the consensus was that the August 15 date was too soon and we needed to push the date back into September. Labor Day is early this year - September 1. Consequently, let's attempt to set a date either week of September 8 or 15. I would suggest a Monday but another day of the week would possibly work. This will give us all some time to update our senior management on the various issues as well as surround the groundwater and legal issues. We will also need to communicate the need for a slip in the schedule until September with key staff in each of our organizations.

Please let me know if I've missed something. I'll send out a meeting request/save the date email for July 17 as well.

Thanks.

Bruce
